

COMPANY	TYPE OF NETWORK	BENEFIT
Google Docs	Word processor that allows seamless sharing of documents with anyone	Collaborative content-creating, or report-writing tasks are easier to handle on Google Docs.
WhatsApp	Numerous users in India	Messengers are only useful when they can connect the user with a large number of peers. Hence, WhatsApp holds a lot of utility for Indians.
UPI	Adopted by various retail consumers	By placing a UPI scanner in their shops, merchants can accept payments instantaneously from various customers.
LinkedIn	Acts as a social media platform for jobseekers	Recruiters can find a lot of active jobseekers on LinkedIn.

Summary

Strategic alliances are advantageous for newcomers entering foreign markets, particularly in highly competitive environments.

Human skills and assets are crucial in the service sector, directly impacting a company's ability to attract customers and offer a wide range of services.
