

THERE ARE MORE PEOPLE IN MEXICO THAN in any other MEXICANS

MULTI-COLORED CULTURE

Spanish-speaking country in the world, including Spain, and its population is still increasing rapidly. Of the total number, about 60 percent are *Mestizo*

New World mix

In common with much of South America, Mexico has a culture that blends influences from its indigenous population with those of the Spanish who defeated the Aztecs and colonized the country during the 16th century. Mexico remained under Spanish rule for 300 years, achieving total independence only in 1821.

LOOKING TOWARD THE PAST

Deceptively modern in feel, these shops in the city of Oaxaca have been built in an early colonial style distinguished by simple shapes, flat roofs, and wide doors and windows with contrasting borders.

ART FOR ALL

During the 20th century, Mexican artists led a movement to bring art to the people by putting it on public buildings. This Mexican culture mosaic is at the University Library in Mexico City.

Mexican women buy fresh fruit and vegetables daily at the local market, like this one in Mérida, Yucatán.
