

Show offs

Although Stegosaurus' plates look impressive, experts think they were just for show. They were possibly used to attract a mate or warn off predators.

Bony plates

Allosaurus fossils have been found with holes made by Stegosaurus tails.

Spiked tail

Stegosaurus had a sharp toothless beak to nibble on leaves and ferns.

Our dangerous spiked tails came in handy if we were ever under attack.

Size: 9m (30ft) long

Habitat: Woodland

Diet: Plants
