

The Triassic

The Triassic was the **first** of the three periods of the Mesozoic Era. It lasted for 51 million years, and was the beginning of the age of the dinosaurs.

Thecodontosaurus

The Triassic world was covered in deserts.

Coelophysis

The world was very hot and dry during the Triassic.

TRIASSIC PERIOD

251–200 million years ago

A new world

The Triassic began after a mass extinction **wiped out** almost all life on Earth. It took the planet a long time to recover, but when it did, many new types of animals appeared.
