

My strong legs and light body made me the perfect sprinter.

Gallimimus

GAL-ih-MIME-us

If there's one thing Gallimimus is famous for, it's being **super speedy**. It was probably the fastest dinosaur of all time.

Large eyes

Like modern birds, Gallimimus had hollow bones.

Toothless beak

Stone swallower

Gallimimus didn't have any teeth, so it ate stones, which helped digest leaves by **grinding them up** inside its stomach.
