

Our **FLEXIBLE** jaws
allowed us to swallow
smaller prey **WHOLE**.

A long, flat tail helped
Mosasaurus propel
itself through water.

Large flippers

What's for dinner?

Mosasaurus ate **anything** from squid and fish to turtles, ammonites, and possibly even small dinosaurs that got too close to the water.

Size: 15m (50ft) long

Habitat: Oceans

Diet: Fish and marine reptiles
