

Maiasaura  
nest

Apatosaurus  
egg

How big were dinosaur eggs?

## Safety in numbers

A huge Maiasaura nesting site found in the USA in 1979 proved that some dinosaurs built their nests close to **each other**. They probably did this for safety.

Oviraptor  
philoceratops  
egg

Chicken  
egg

An Apatosaurus egg  
was about the size  
of a basketball!
