

► PICTORIAL BLOCKS

Most pictorial quilt blocks are appliquéd, but there are a number of representational blocks, traditional and modern, that are pieced. Many of them, such as flowers and leaves, derive from nature, and most look best if

they are spaced out on a quilt, not set together edge to edge. Sashing (see pp.78–79) can be used to separate blocks to show them off, or they can be alternated with plain, solid blocks.

MAPLE LEAF: NINE-PATCH

1 Divide the size of the finished block by three. Add seam allowances. Cut three squares that size from fabric A and two from fabric B. From fabric A cut a strip 4cm (1½in) wide and long enough to fit across the diagonal of one square for the “stem”. Make four half-square triangles of the same size (see p.64) from fabrics A and B.

3 Following the layout, join the units to make three rows of three blocks each.

2 Place the stem strip diagonally across one of the fabric B squares. Turn under the raw edges on the long edges and one short edge. Topstitch along the edges through the fabrics. Trim the other edges level with the corner of the square.

4 Join the rows, making sure you catch the raw edge of the “stem” strip in the seams.
