

6 Cut a square of the appliqué fabric and one of the background fabric, both 5cm (2in) larger than the pattern square. Fold both in half twice to find the centre and position them, wrong side of the appliqué fabric to right side of the background fabric.

7 Centre the freezer paper pattern on the right side of the appliqué fabric, sticky side down, and iron it in position.

8 Tack the layers together 6mm (1/4in) from the inside edge of the paper pattern.

9 Work a small section at a time by cutting away the appliqué fabric along the edge of the pattern, leaving a 6mm (1/4in) seam allowance. Turn the seam allowance under so that it's level with the edge of the pattern and blind stitch the fabric to the background.

10 Continue cutting and stitching until the entire pattern has been applied to the background (see p.111 for dealing with curves). Remove the tacking stitches and peel the pattern away.
