

3 Using scissors, cut the paired pieces apart by snipping through the short length of thread between them. Press the seams towards the darker triangles. You will have 36 half-square triangles.

5 With right sides together, pin a vertical sashing to each of the two opposite sides of a blue square so the blue triangles of the sashing adjoin the blue square. Stitch, leaving a 1 cm ($\frac{3}{8}$ in) seam allowance, then press the seams towards the square.

4 Lay three of the half-square triangles in a vertical row with the aqua triangles on the left-hand side. With right sides together, stitch the half-square triangles together, leaving a 1 cm ($\frac{3}{8}$ in) seam allowance. Press the seams towards the darker triangles. Repeat to make a total of six rows. These are the vertical sashings.

6 With right sides together, pin a vertical sashing to the right-hand edge of an aqua square so the aqua triangles of the sashing adjoin the aqua square. Stitch, leaving a 1 cm ($\frac{3}{8}$ in) seam allowance, then press the seams towards the square.
