

20 With right sides together, pin and stitch the back pieces of the cushion together along one long edge, leaving a 1.5cm ($\frac{3}{8}$ in) seam allowance and a 51cm (20in) opening at the centre. Tack the opening closed by machine or by hand. Press the seam open.

21 On the wrong side of the back, pin and hand tack the zip, face down, in the centre of the opening (see p.141).

22 On the wrong side, use a zipper foot to stitch around the zip, 6mm ($\frac{1}{4}$ in) from the edges of the zip, and straight across the ends. Remove the tacking stitches. Undo the zip in readiness for turning the cushion cover to the right side.

23 With right sides together, pin the front and back of the cushion cover together. Stitch around the outer edge, leaving a 1cm ($\frac{3}{8}$ in) seam allowance. Turn the cushion cover to the right side, insert the cushion pad, and close the zip.
