

# DIAMOND COASTERS

These coasters can be whipped up in no time and are perfect for practising set-in-seams. They can easily be made from odd scraps of fabric

that you might have around the house. Make them as a house-warming gift – or to keep for yourself.

## DIFFICULTY LEVEL

Easy

## SIZE

11.5cm (4½in) diameter approximately

## TOOLS AND MATERIALS

Tracing paper  
Pencil  
Scissors  
Quilter's ruler  
Rotary cutter  
Cutting mat  
Sewing machine  
Threads to match your fabrics  
Pins  
Sewing needle

## FABRICS

Three 15 x 9cm (6 x 3½in) pieces of coordinating fabric scraps per coaster  
15 x 15cm (6 x 6in) backing fabric  
15 x 15cm (6 x 6in) wadding (optional)

## LAVENDER BAG VARIATION

16cm (6¼in) of thin ribbon  
Dried lavender

## SKILLS

Set-in seams (see p.75)

## SEAM ALLOWANCE

6mm (¼in) throughout, unless otherwise stated

## PATTERN

1 Trace the diamond template (see p.214) onto the tracing paper and cut out the diamond pattern piece. Be sure to add the 6mm (¼in) seam allowance lines to the pattern piece. Place the pattern piece on a piece of scrap fabric and, using the quilter's ruler and the rotary cutter, cut a fabric diamond. When cutting, align the marked seam allowance with the 6mm (¼in) mark on the quilter's ruler to ensure that you do not make the pattern piece smaller each time you cut.

2 To prepare to sew set-in seams (see p.75), mark a dot 6mm (¼in) inside each corner on the back of each fabric diamond. Pin two diamonds, right sides together, along one edge. Sew the diamonds together between the two marked dots, taking care not to sew beyond the dots.

3 Following the same technique, set in the third diamond to complete the coaster top. Press the seams at the back to one side.
