

9 Oversew (see p.41) the opening in the edge of the coaster closed, picking up a few threads from each side of the opening as you go.

10 Leaving a 1 cm ($\frac{3}{8}$ in) seam allowance, topstitch around the edges of the coaster with coordinating thread. You can quilt the coaster in any pattern you wish to help hold the wadding in place, if used.

► LAVENDER BAG VARIATION

By slightly altering the pattern, you can turn the coaster into a lavender bag for your wardrobe to keep moths at bay. You can also make the lavender bag without a

ribbon and use it as a scented sachet to keep in a drawer.

1 Follow Steps 1–4 of the coaster. At Step 5, pin the length of ribbon between the coaster top and the backing. Centre the ribbon on one corner. Complete Steps 6–8 of the coaster, securing the ends of the ribbon in place in Step 6.

2 Stuff the lavender bag with dried lavender, then sew up the opening in the edge, as in Step 9 of the coaster. Your lavender bag is now complete.

Keep moths at bay in your wardrobe by looping these pretty patchwork lavender bags on your clothes hangers. Thanks to the natural properties of lavender, the bags will act as moth-repellents.
