

5 With right sides together, pin together, then sew the top two blocks of your design, and the bottom two blocks. Here the blocks have been joined so that the darker colours are adjacent to each other. Press the seams open.

6 To complete the cushion front, with right sides together, pin, then sew the top pair of blocks to the bottom pair of blocks. Keep the seams joining the strips aligned between one pair of blocks and the other. Press the seam open.

Trim the backing and wadding so they are square

7 Lay out a piece of backing fabric and place the wadding on top. Place the cushion front on top of the wadding, right side face up. Use safety pins or tack all three layers together. Use the quilter's ruler and rotary cutter to trim the wadding and backing fabric square with the edges of the cushion front.

8 To make the cushion back, cut two pieces from the backing fabric, each 42 x 26cm (16½ x 10in). Fold one of the long edges of one piece to the wrong side of the fabric by 1cm (¾in). Fold it again by the same amount to create a neat hem and to enclose the raw edge. Pin the hem in place.
