

3 Add 1cm ($\frac{3}{8}$ in) extra all around the shape, then cut out the template along this line.

4 Pin the extra 12.5 x 12.5cm (5 x 5in) square of main fabric right sides together onto the front piece of the main fabric so that the top of the rectangle sits about 5cm (2in) down from the top edge of the front fabric. Centre the template in the square and trace around it. This is where your motif will appear on the bag front.

5 Using a matching thread, carefully sew along the traced line.

6 Cut inside your stitching, leaving a 6mm ($\frac{1}{4}$ in) seam allowance.

The matching thread stitched along the traced markings

7 Snip into the seam allowance, being careful not to cut any of the stitches (see p.124).
