

SETTING IN HEXAGONS

1 To set in a third hexagon, oversew one side of the seam, starting at the centre point.

2 Align the second sides to be joined at their outer points, folding back the pieces as necessary, and stitch as before.

NEAT FOLDS

Fingerpress the seam allowance at the point

1 To make a neat fold at the sharp points when tacking diamonds and triangles, start sewing in the middle of one side. When you reach the point, fingerpress the extended seam allowance.

Fold the next seam allowance and continue stitching

2 Fold over the allowance from the next side neatly. Take a stitch through the fold and continue. Do not trim off the fabric extensions.

NEAT JOINS

To make a neat join when you sew pieces together, fold the extension to the side so that you don't stitch through it. Where several come together, the unstitched extensions will form a spiral around their meeting point and lie flat.
