

9 Roll one folded edge in the background square over the raw edge of the first window square.

10 Matching the thread to the background fabric, sew the rolled, slightly curved overlap in place with tiny stitches, catching in the raw edge completely. Do not stitch through the background fabric. Repeat to catch in the other three edges of the window.

11 Repeat Steps 7 to 9 to fill the other spaces in the square. If you work in rows, add windows after you join rows together.

SECRET GARDEN

Sew window square on points within lines

1 Make a folded square as for Steps 1 to 3 of Cathedral window (see opposite). Fold and press the corners, as in Step 4, but do not stitch in place. Cut a window square the size of the finished square.

2 Open the pressed corners and place the window square on point within the lines. If necessary, trim the raw edges to fit and anchor with small tacking stitches.

Pin 6mm (1/4in) in from each corner

3 Fold the four corners of the background square into the centre. Press. Anchor each corner in the centre with a small cross, stitching through all layers.

4 Pin 6mm (1/4in) in from each corner through all layers to stabilize the square.

Turn over the background square edge and sew in place

5 Turn over one edge of the background square to form a curving "petal" shape. Sew in place, working outwards from the centre and using thread to match the background fabric.

6 Repeat on all eight folded edges of the background square, removing the pins and securing each corner with a double tacking stitch.
