

Float like Items

(Long-term)

After going through Reverse float-like items and one-time recoverables, let's look at Long Term Float Like Items. For this, we have to go back to the Balance Sheet and look at Long Term Liabilities or Non-current Liabilities and Other Financial Liabilities.

For this, we go to Note no. 27.

27 Other Financial Liabilities - Non-Current		
	As at 31 st March 2021	As at 31 st March 2020
Retention money payable	13.33	6.79
Employees related liabilities	0.30	0.47
TOTAL	13.63	7.26

We find Retention Money Payable and Employee Related Liabilities. The first one is a reverse-float-like item, whereas the latter is a one-time recoverable item. We, however, will use the entire number for Float Like Items as the amount for employee related activities is negligible.

Thus, float-like items in other non-current liabilities are Rs.14 crores in 2021 and Rs.7 crores in 2020. Non-interest bearing debt like items will be zero as no other items are left in the non-current liabilities category.
