

To get the total, we need to add up all the employee benefit expenses.

Employee benefit expenses = Rs. 884 Cr + Rs. 24 Cr  
paid yearly in 2021 = Rs. 908 Cr

Employee benefit expenses = Rs. 55 Cr + Rs. 17 Cr  
with deferred payments = Rs. 72 Cr

This way, we can calculate the employee benefit expenses paid yearly and at a deferred stage.

For 2020,

Employee benefit expenses = Rs. 834 Cr + Rs. 28 Cr  
paid yearly in 2020 = Rs. 862 Cr

Employee benefit expenses = Rs. 51 Cr + Rs. 14 Cr  
with deferred payments = Rs. 65 Cr

Here we intend to understand if major part of compensation to employees is cash outflow during the year or is it at a deferred stage i.e. long term incentives. We will learn more about Employee Benefit Expenses going ahead.

Let us move on to understand the last part of Annual Inputs section - Major Business Segments.
