Minority Interest

So now we have accounted for all the important items and profit for the year has also been calculated. So the next thing we will discuss is the non-controlling or minority interest. Minority Interest is the part of profit or loss that does not belong to the company but belongs to minority shareholders in company's subsidiaries.

Share of Minority interest in Profit for the year is a loss of Rs. 5 crores in FY21 and a profit of Rs. 6 crores in FY20.

Share of Profit in Associate (net of tax)	42(a)	3.98	3.03
Total Share of profit of Associate and Joint Venture		3.98	3.03
Profit before Exceptional Items and Tax		1,526.11	1,524.96
Exceptional Items	41	3.62	55.19
Profit before Tax		1,522.49	1,469.77
Tax Expense			
Current Tax	53	399.88	383.99
Deferred Tax	53	(3.52)	(36.27)
Net Tax Expense		396.36	347.72
Profit for the year		1,126.13	1,122.05
Attributable to:			
Shareholders of the Company		1,131.21	1,116.42
Non-Controlling Interest	42(b)	(5.08)	5.63
Other Comprehensive Income			
Items that will not be reclassified to profit or loss			

We shall match the PAT that we have calculated, with the numbers reported under the line item of "Shareholders of the Company".

Next, we will calculate the PAT after accounting for the impact of Minority Interest. So the PAT is Rs.1114 Cr and Rs.1131 Cr (after subtracting non-controlling interest and exceptional items). We will match the Profit after tax that we have calculated and the one reported by the company. The two should match if we have not normalized line items.

$$\text{PAT} = \text{PBT} - \text{Total Tax Expense} + \text{Profits from JV and Associates} - \text{Non Controlling Interest} - \text{Exceptional Items}$$

46							
47	Profits from JV and Associates				3	4	
48	Non-controlling interests				6	-5	
49	Exceptional Items				55	4	
50							
51	PAT	0	0	0	0	1114	1131
52
