

1

Equity

For the 2021 column, let's start with Shareholder's capital. For 2020 and 2021, the shareholder's capital value is the same, which is Rs. 51 Cr. The values for Reserves and Surplus for 2020 and 2021 are Rs. 4405 Cr and Rs. 5542 Cr, respectively. We got this Value from inputs that we added earlier.

For items of OCI, it is not available. We will then enter non controlling interest or minority interest from the balance sheet. For 2020 it is Rs. 216 Cr, and for 2021 it is Rs. 240 Cr.

5	PARTICULARS	FY 2016	FY 2017	FY 2018	FY 2019	FY 2020	FY 2021
6	Equity						
7	Shareholder's Capital					51	51
8	Reserves and Surplus	0	0	0	0	4405	5542
9	Items of OCI					0	0
10	Minority Interest					216	240
11	Total equity	0	0	0	0	4672	5833

Now we get the total equity of the company. For the year 2020, it is Rs. 4672 Cr, and for the year 2021, it is Rs. 5833 Cr.

2

Non-Current Liabilities

LIABILITIES			
1	Non-Current Liabilities		
(a)	Financial Liabilities		
(i)	Borrowings	24	12.39
(ii)	Lease Liabilities		80.68
(iii)	Other Financial Liabilities	27	13.63
(b)	Provisions	29	57.98
(c)	Deferred Tax Liabilities (net)	53	398.03
	Total Non-Current Liabilities		562.71

Long-Term Borrowings

Next, we will be filling out the long-term borrowings column. We will get the numbers from non-current liabilities in the balance sheet:

- ◇ Long terms borrowings will include values from Borrowings and Lease in the Balance Sheet. So, we see that the value is Rs. 93 crores (12+81) for 2021 and Rs.108 crores (25+83) for 2020. You can even make choices about categorization of line items if it makes economic sense. For instance, you might not include Lease as long term borrowings here.
- ◇ For Long Terms Provisions, the value is Rs. 58 Cr for 2021 and Rs. 52 Cr for 2020.
- ◇ The value for Other Non Current Liabilities has already been derived from the 'Annual Inputs Sheet' where we entered Float like items in other non-current liabilities and One Time payables.
- ◇ Next on the Balance Sheet are Operating Long Term liabilities which are not available for this company.
- ◇ So we can skip to Deferred Tax Liabilities. For 2021, it is Rs. 398 Cr, and for 2020, it is Rs. 82 Cr.
