

4.5

Filling the Cash Flow Statement

In the previous unit, we entered numbers for income statement and balance sheet. In this unit, we will enter past numbers for the cash flow statement. Once we have entered all the raw numbers, we will move forward to analyzing them in detail.

We need to follow these steps till the time we are manually entering data in the raw sheets. Once we start downloading numbers and start entering them, we will save a lot of time as well as we will not have to over-write or check individual numbers. The software will help us out. However, when starting out, it is incredibly important that we do it manually so that we get comfortable with the numbers.

1

Cash Flow from Operating Activities (CFO)

Let's move down to the consolidated cash flow statement. First, we will concentrate on cash flow from operating activities.

a) PBT and Sum of Non Cash and Non Operating items

Non Cash and Non Operating Items
