29	Other Non-Current Financial Liabilities				-76		6
33							
34	Total Financing working capital changes	0	0	0	0	51	172
35							
36	Total working capital changes	0	0	0	0	57	27
37							
38	Cash Generated from operations	0	0	0	0	1673	1763

Once we enter all the working capital changes, we will calculate Changes in Operating Working capital, changes in Financial working capital and total changes in working capital.

With this we will also have Cash generated from operations before taxes.

In the next step, we have to deduct the income tax paid values from the company book.
