

Total Comprehensive Income

We can see that the Total Comprehensive Income is very much on the lines of Profit After Taxes.
We can see that the margins are increasing over time with an increase in sales.

OCI						
Remeasurement of defined benefit plan	0%	0%	0%	0%	0%	0%
Income Tax related to OCI	0%	0%	0%	0%	0%	0%
Exchange difference on translation	0%	0%	0%	0%	0%	0%
Total OCI	0%	0%	0%	0%	0%	0%
Total Comprehensive Income	14%	14%	15%	13%	15%	15%

From our analysis so far, we see that we need to understand these items for this company-

We see that the way forward is -

- ◇ Why are Employee Expenses as a percentage of revenue increasing?
- ◇ What factors affect raw material prices?
- ◇ Margins after advertising and traveling related expenses come back to normal.
- ◇ Post Covid Impact on revenues.

We need to find answers about the increase in Employee Benefits and Other Operating Expenses.

This is how to analyze a case study and Income Statement of any company and get a good grip on all the company numbers. With this we conclude the common size income statement analysis for Pidilite Industries Ltd.

It is important to practice this on other companies too from diverse industries. **The more you do it, the better you will understand how the profits of a company are moving and the factors affecting it. You will then be able to ask very specific questions and analyze pinpoint factors in the company's profits.**

Lets now move on to the next section where we will begin with cash flow. We will come back to Income Statement later for a very detailed analysis of each line item.
