After going through short term operating and non-operating items, we will now go through Non-Current Assets categorizing them into operating and non-operating. Let us begin with Operating Non-Current Assets.

Operating Asset Turnover

This measures the revenue that the company is able to generate for every unit of operating long-term assets. The higher the Operating Asset Turnover, the lesser the capital requirement for the business.

Operating Assets						
Operating Asset Turnover	2.16	2.07	1.87	1.92	1.78	1.00
Margins(EBIT/Revenue)	18.85%	18.89%	19.63%	17.48%	19.26%	20.29%
ROA(EBIT/Operating Assets)	40.8%	39.1%	36.7%	33.5%	34.3%	20.3%
ROA (PAT/Avg Operating Assets)	62.11%	60.50%	61.29%	54.83%	53.94%	24.01%
