

Let us summarise what we have learned so far:

1

What part of assets are productive and unproductive

2

How are productive assets utilized?

3

Are the non-productive assets investment-worthy?

4

Segmental analysis of assets

5

Quality and life of assets

6

Maintenance and Growth CAPEX

7

Frequency of CAPEX

8

Reinvestment of cash-flow to stay in business

This completes our understanding and analysis of the Fixed Assets of this company. This exercise is to be done for other companies as well, which will help us understand the fixed assets side for other companies and other industries as well.

In the next section, we look at Intangible Assets.
