Intangible Assets

In this section, we will analyze Intangible Assets.

Intangible Assets						
Intangible Assets - Capitalised Expenditure	133	134	177	185	184	1284
Intangible Assets - Exclusivity	232	336	346	333	318	1671
Intangible Assets - Normal Assets	17	16	16	17	16	21
As a % of total						
Intangible Assets - Capitalised Expenditure	35%	28%	33%	35%	36%	43%
Intangible Assets - Exclusivity	61%	69%	64%	62%	61%	56%
Intangible Assets - Normal Assets	4%	3%	3%	3%	3%	1%

As we had discussed earlier, Intangible Assets can be classified into three types-

In this section, however, we are more concerned with what percentage of Intangible Assets is under each of these three types: Capitalised Expenditure, Exclusivity, and Normal Assets.

This will give us an idea of where a significant chunk of Intangible Assets is invested.

As seen, a large amount of Intangible Assets is in the form of Exclusivity, which provides benefits to the company. It is important to know which exclusive asset the company has and how the company benefits from them.
