

Work In Progress/ Gross Block - Tangibles Only

This is very important as we need to know the total increase in gross block expected when the WIP is completed. This will help understand the capacity increase to expect in near term and now it can translate to growth.

What is the segment in which expansion is being made?	
Purpose/ Motivation of Expansion	
WIP/ Gross Block - Tangibles Only	20.91% 18.72% 28.40% 26.49% 22.68% 22.88%

The higher the number, the more important the Capital work in progress as the assets will increase by that much. If WIP/ Gross Block is 100 percent, the company expects to double the gross block in the next 1-2 years when the project is completed. We can expect sharp increase in revenue when capacity is ramped up.

We need to know how large is the Capital Work in Progress, which will tell us how significant will be the impact on the company.

WIP/ Gross Block - Tangibles Only	20.91% 18.72% 28.40% 26.49% 22.68% 22.88%
Understand the time to complete Capex and earn revenues?	
Impact of capex on Margins and turnover	
Total money required for completion of project. Adequate provisions for the same?
