

Minority Interest / Total Assets

We need to know what part of Total assets is formed by Minority Interest. **Minority Interest is the part of the balance sheet that does not belong to the company.** We have already understood minority interest earlier. Minority interest is reported under equity for assets not owned by the company.

We need to understand the minority interest, size and subsidiaries that contribute to minority interest.

minority interest

As seen, Minority Interest/Total Assets is about 3 percent which is relatively quite low. If this number is more than 10 percent, we need to dig deep and see what the minority interests are.

Minority Interest/ Total Assets	1.17%	2.67%	3.37%	3.50%	3.31%	2.72%
OCI/ Total Assets	0	0	0	0	0	0
