PAT growth rates	6.94%	11.68%	-3.53%	20.16%	1.52%	
Revenue growth rates	6%	3%	14%	3%	0%	
OCI/Total comprehensive income	-0.000236086	-0.002527046	-0.001604401	0.002977854	0.003166453	-0.009691756

Next, we need to ask questions to analyze Margins and Growth Rates. We will identify the growth rate at different levels: Revenue, PAT, EBIT, EBITDA, EPS, etc. We need to understand how the company's revenue and profits are increasing. Also, we will understand how the margins are changing at different levels.

Let us start with Gross Profit Margins.

1. Gross Profit Margins:

We can see that the company is earning between 50-60% at Gross Profit Margins. Also, we had seen earlier that raw materials are related to crude oil so can expect some cyclical in gross profit margins.
