

So, to sum up, the questions we ask includes:

What is the total effective tax rate? Is it in line with corporate tax rate?

Is the current tax expense in line with Income tax paid?

Any assets/ liabilities that the company has related to taxes?

How large are they? If they are too large, we will need to dig deeper and ask questions like:

- ◇ When can they be recovered?
- ◇ When does the company need to repay them?

Net DTA and DTL, and how large are they compared to the total balance sheet size?
