

With this we conclude our discussion around the company's income statement. We now understand the Balance Sheet and Income Statement well. To revise, we understood:

The sources of revenue

Patterns of Gross Profit Margin (GPM)

How large is operating/ non-operating revenue

Employee benefit expenses

Cost drivers

Depreciation and amortization

Common size analysis

Other operating/ non-operating expenses

Operating assets turnover

Exceptional items

Costs at different levels

Margins and growth rates

COGS

Taxes
