SEGMENTAL ANALYSIS

In the previous section, we looked at Subsidiaries, Joint ventures and Associates. In this unit, we will understand the segmental performance of the company.

Segmental Revenues

We need to know what are the different segments that the company has? Pidilite reports three segments:

Any part of the business that is more than 10 percent of revenue must be reported as a separate segment. Reporting segments smaller than that is a choice of the company.

Segmental Revenues							
Segment Revenue as a % of total							
Sale of Products	84%	85%	85%	76%	76%	79%	
Sale of Services	15%	15%	14%	23%	16%	20%	
Other Operating Revenue	1%	1%	1%	1%	1%	1%	
	0	0%	0%	0%	0%	0%	0%

We have to look at Segment Revenue as a percentage of Total Revenue.

- ◇ Consumer Products share was 84% of revenue in FY 2016, which slowly and steadily started increasing.
- ◇ The share of Industrial products was steady, but lately, in the last two years, its share has shot up significantly.
