Prepaid expenses are Rs. 14 crores, as seen from Note 21.

This is how we manually check the notes to enter all the numbers. Doing this properly is a time-intensive task but it is essentially to do it manually to get comfortable with the numbers and the template. Once we are more comfortable with income statements and the balance sheets, we can start using paid subscriptions to speed up the process.

While manually filling in details for all the years can take up to a full working day, automating the downloading and linking process for the data can bring it down to 2-3 hours.
