

PROFESSIONAL VC (VENTURE CAPITALIST)

Professional Venture capitalists can be for different cheque sizes - from USD 1 million to hundreds of millions of USD. Not every business makes it to this stage. By now, the business has become sizeable and is ripe to grow aggressively by taking in venture capital. This will generally be during growth stage. They will typically enter with a large sum of capital and connections.

Different VCs have different investment philosophies. They won't invest much in experimentation; they will invest in growth and help you speed up the process. So, this only comes in after a sizeable traction where you can demonstrate that the idea is working and can grow to become really big. Very clear business growth plans are required at this stage.

At most stages you will fail to secure capital if you fail to demonstrate either of the two:
