

9. INDUSTRY ASSOCIATIONS

Your industry will have a particular industrial association where you can reach out for fundraising and get connections and introductions. The association already has many people who are directly involved in the industry. These people know the market well and will likely know the investors interested in putting capital in that specific market. Now it is up to you as an entrepreneur and the level of traction and whether or not it appeals to them. You can find numerous valuable introductions through industrial associations. These connections can help you grow your business as well.
