

9. REVENUE MODEL

You have to share your strategies and how you plan to make money. You also have to explain the opportunity. For example, you are planning to make money by selling advertisement space or products or subscriptions. You also have to consider and explain how big a business can become?

10. FINANCIALS

Next, you need to share information about your current financials. You can share revenue and expenses for last few months.

11. TEAM

The investor also expects information about your team - who are the people associated with you? Here you have to introduce the founding team and any advisors that you have, You can even introduced your key team members if they have rich past experience.
