

You can read and access other pitch decks from the website. You can take inspiration from them. However, these are all 12 to 15-year-old pitch decks when technology was new, and the mindset was different. Now you must design it according to today's standards using modern tools. However, you must focus on the content and the structure for the pitch deck. Also, the ultimate objective is that the business should be communicated well to the investors. If it is communicated, role of pitch deck has been served well.
