

2.2 WHAT DO YOU GET BY ONBOARDING INVESTORS

In the previous module, we discussed what fundraising is exactly and what one gets from this? Lets build further on this topic.

What exactly do you get out of this?

01 CAPITAL

The very first thing that an investor brings into the business is Capital. This capital, being your first cheque will help setup a basic team and get your product in the market and generate revenue from the same.

Going ahead, the existing investors may act as standing source of capital if they have deep pockets or can introduce you to other investors if you perform well.

50 lacs

For example, let us assume that the investors have invested 50 lacs to help you start.

1 year

This is to reach a certain number of customers every month, or help you earn a certain monthly revenue. Now you have taken one year to figure out all the essential parts
