

The next document is :

Share Subscription Agreement and the Share Purchase Agreement.

This is a straightforward agreement where you make an offer to the investor. The offer is same as the one agreed and you invite them to participate.

You give the investors a Share Subscription Agreement along with an application form.

They can fill out this application form and give it back to you

All these must be submitted to the government under the company's act. A company secretary will help you with all these steps.

The next thing required is:

A Valuation Report prepared by an RVA, i.e., a Registered Valuer of the government.

Once the report is done, you can use the numbers in the Shareholder's Agreement and the Application Form.
