

2.4 ARE YOU READY FOR IT AS BUSINESS

In the previous section, we discussed the question: do you need a fundraise for your business? We discussed successful companies with and without external funds. Now that you feel you require funds for your business; the next question you need to answer is-

Are you ready as a business for the fundraise?

Investments deals can happen at almost any stage. Companies get funded at Idea stage without any market presence as well.

Also, many other businesses have been in the market for over 5 years and have a few crores of sales. Despite this, they have not been successful in raising external capital because maybe their business could not convince the investors of its scalability.

The main question is, Are you ready as a founder, a business, and a market (whatever market you are operating in)?
