

STATISTICS

This is a fact that out of every 10, one company is able to raise that capital.

Also, out of every 10 funded companies, only 1 or 2 become large companies. Investors want confidence that, the founder, the company, and the market have a good chance to scale up and becomes a successful company.

As a founder you need to work with growth mindset and provide evidence that your thesis

can get the investors excited

your capability to scale, you should be able to attract investors.
