

Demand - Supply Scenario for **Paper Industry**

Demand expectation

- Current industry demand (2019) - 17 MTPA
- Expected growth growing forward - 7-8% p.a.
- Expected industry size 2024-25 - 23.5 MTPA

Supply Scenario

- Current industry production capacity (2019) -15 MTPA
- Expected production capacity 2024-25 - 22 MTPA

Going forward, the Paper Industry can expect a similar balance between demand and supply. The profitability might change in a cyclic manner but it shall be stable in the long term.

For a more detailed analysis, factors affecting the demand and supply can be evaluated individually.
