

# Industry Stability - Indian Paints Industry

| Companies                                                                                            | 2010        | 2015        | 2019        |
|------------------------------------------------------------------------------------------------------|-------------|-------------|-------------|
|  <b>asianpaints</b> | 59.4%       | 57.5%       | 57%         |
|  <b>Berger</b>      | 16.9%       | 17.6%       | 18.6%       |
|  <b>NEROLAC</b>     | 15.3%       | 14.6%       | 15.34%      |
| <b>AkzoNobel</b>                                                                                     | 8.2%        | 10.39%      | 8.65%       |
| <b>Total</b>                                                                                         | <b>100%</b> | <b>100%</b> | <b>100%</b> |

The revenue of top 4 players is studied to understand the industry stability. We see that the top 4 players (which form 70% of the market) have hardly moved over 10 years. So we can conclude that it is a very stable industry and it is difficult to gain and lose market share.
