

Foreign Tax Changes and Implications

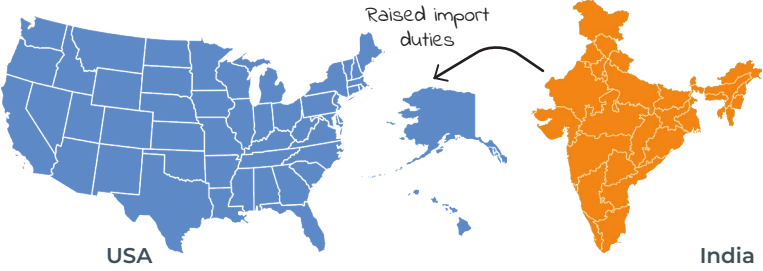

USA-China Trade War

A map showing the United States in blue and China in yellow. Two curved arrows point from each country towards the other. The arrow from China to the USA is labeled "Duties on Imports". The arrow from the USA to China is also labeled "Duties on Imports".

- USA-China Trade War since 2017, has caused both the countries to put duties on imports from goods manufactured in the other country.
- This has caused industries in both the countries to suffer as it makes the existing supply incompetent.

Indian Steel and Aluminium Industry

A map showing the United States in blue and India in orange. A curved arrow points from India towards the USA, labeled "Raised import duties".

- For India, USA imposed raised import duties from 10% to 25% for steel and aluminium products which significantly impacted the industry.
