

Sunscreens available in India

Uses most of Industry Practices

How things are being done in the industry

M'Caffeine Sunscreen Powder

uses coffee as a raw material

It saves the entrepreneur and business manager from creating a 'me too' company and a product and allows them a chance to stand out in the industry.

Potential Outcome of defying Best Practices

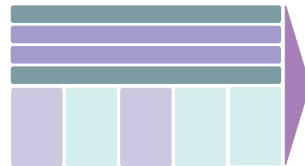

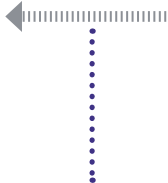

It may cause failure

OR

It also has a potential of a much higher return if the approach works.

Industry Value Chain

Company Value Chain

It may even lead to others shifting to this new 'best practice' and starting at a position of relative disadvantage.
