BYJU'S

The Learning App

Byju's is an online education app for Indian students and provides on-demand class for the students in various subjects. The app has been well received by investors. The key question is whether it will be a success in India or will fade away over time. The other question is whether the Indian students would switch to Byju's or not.

Customer Profile

Pains

Expensive Tuition Classes

Lack of standard quality teaching and faculty

Big batches for students; inadequate attention

One-size-fits-all way of teaching

Lack of flexibility in timing

Travelling is an issue for remote areas
