

The Indian Tablet market has experienced a renaissance, evolving beyond simple content consumption devices to become powerful tools for empowering creativity, productivity and education. With advancements in chip architecture and increasing computation power, the gap between tablets and traditional computers is now narrower than ever. The best tablets of 2024 cover all bases, be it stylus support, better multitasking capabilities or access to desktop-class apps, without compromising on entertainment features. This Zero1 Awards category acknowledges tablets that excel in versatility, recognising their crucial role in hybrid work environments, education and their ability to serve as primary computing devices for many creative users.

Winner: Samsung Galaxy Tab S10 Ultra

The Samsung Galaxy Tab S10 Ultra sets a new benchmark for Android tablets in 2024. Powered by the MediaTek Dimensity 9300+ processor, it features 12 GB LPDDR5X RAM and up to 512 GB UFS 4.0 storage, delivering exceptional performance in multitasking, gaming, and 4K video editing. With a massive 11,200 mAh battery providing up to 12 hours of use and 45W fast charging, it ensures uninterrupted productivity. Benchmark scores rival competitors, while Samsung DeX offers PC-like functionality. Though its cameras are functional, the dual front lenses shine in video calls. This tablet is a powerhouse of versatility and performance.

Big Screens, Bigger Dreams

Samsung Galaxy Tab S10 Ultra
Price: ₹1,08,999

Redmi Pad Pro 5G
Price: ₹24,999

Runner-Up: Apple iPad Mini 2024

The Apple iPad Mini 2024 redefines portable computing by striking an ideal balance between power and portability. Despite its compact form factor, the iPad Mini 2024 doesn't compromise on capabilities. With 8GB of RAM and starting at 128GB storage, it handles everything from intensive gaming to creative workflows with remarkable efficiency. The tablet excels in consistently delivering 9+ hours of active battery life. While the LCD display's 500 nits brightness might seem modest, it performs admirably for indoor use. At its core, the iPad Mini 2024 serves as a perfect middle ground between smartphones and laptops.

Price: ₹49,900

Best Buy: Redmi Pad Pro 5G

The Redmi Pad Pro emerges as our best buy tablet winner, delivering impressive value without breaking the bank.

The Snapdragon 7s Gen 2 processor provides reliable performance for everyday tasks, from web browsing and document editing to light gaming and video editing. The tablet's 10,000mAh battery ensures exceptional endurance, easily lasting through a full day of intensive use, while the included 33W charger provides reasonably quick charging times.

What sets the Redmi Pad Pro apart is its versatility. The optional keyboard case and stylus support transform it into a capable productivity device, while the large, vibrant display makes it perfect for media consumption. For users seeking a well-rounded tablet experience without the premium price tag of flagship devices, the Redmi Pad Pro delivers an impressive combination of features and performance that's hard to beat in its segment.
