

The “Gaming Laptop (Under 60K - 80K)” category has skyrocketed in popularity as Indian gaming culture expands and hardware gets more affordable. These laptops offer solid performance—think Intel 12th or 13th Gen i5 or AMD Ryzen processors, dedicated NVIDIA RTX 3050-level GPUs or up, and at least 16GB RAM—without the premium price tag. It’s the perfect mix of power, convenience, and value, proving you don’t need to break the bank for a great gaming experience. Plus, they’re versatile enough for everyday tasks, making them ideal for anyone who wants a do-it-all device.

Winner: Gigabyte G5

The Gigabyte G5 with its Intel Core i7 and NVIDIA GeForce RTX 4050 is a worthy Digit Zero 1 award winner, striking a near-perfect balance between performance and price. It’s a powerhouse built for both serious gamers and professionals who need fast, reliable hardware without spending a fortune. Powered by the Core i7, it breezes through heavy workloads, and the RTX 4050 GPU ensures smooth, stunning visuals—perfect for modern games at higher settings. Its power efficiency also helps extend battery life during gaming. Beyond raw specs, you get a high-refresh-rate display for fluid motion and a solid cooling system that keeps things running smoothly even during marathon sessions. Durability and comfort are top priorities here too, with

Gaming Laptop (Under 60K - 80K)

Bang for your buck

Gigabyte G5
Price: ₹91,257

MSI Cyborg 15
Price: ₹73,990

a sturdy build and a well-designed keyboard that won’t leave your fingers feeling cramped. In short, the Gigabyte G5 nails the essentials that gamers want—reliability, power, and serious bang for your buck.

Runner-Up: Acer ALG Gaming Laptop

Acer’s ALG, powered by the Intel Core i7-13620H and an NVIDIA GeForce RTX 3050 6GB, snagged the runner-up spot in the “Gaming Laptop (60k-80k)” category at the Digit Zero 1 awards—and for good reason. It strikes a perfect balance between robust specs and wallet-friendly pricing, making it a solid pick for gamers who want high-quality performance without overspending. The Core i7-13620H handles demanding titles with ease, while the RTX 3050 6GB keeps gameplay smooth at higher settings. Plus, its 15.6-inch FHD display with a 144Hz refresh rate delivers the fluid visuals that fast-paced games need. Topping it off, you get a sleek, practical design that looks great and stands up to everyday use. Overall, the Acer ALG offers impressive power, a polished build, and a price tag that won’t break the bank

Best Buy: MSI Cyborg 15

MSI’s Cyborg 15, rocking an Intel Core i5-12450H and an RTX 4050 (6GB), just scooped up the Digit Best Buy Award 2024 in the 60k-80k gaming laptop category—and it’s easy to see why. It blends solid performance with a price tag that won’t drain your bank account, offering a perfect mix of power and affordability. The i5-12450H teams up with the RTX 4050 to handle most modern games at medium to high settings, backed by impressive benchmarks. On top of that, you get a comfy keyboard (with full-size NumPad) and a smooth 144Hz, 15.6-inch FHD display—both big pluses for gaming marathons or work sessions. Factor in MSI’s dependable build quality, and you’ve got a laptop that truly delivers on performance per rupee, cementing its spot as a top pick for budget-focused gamers.
