

Former Union Minister Rajeev Chandrasekhar delivered the special address, highlighting India's growing presence in global electronics and innovation. He emphasised the shift from import-based to export-led electronics manufacturing, with trends such as digitisation, AI-driven smart products, and India's expanding role in global value chains.

The event featured panel discussions on India's tech future, including AI, 5G, and homegrown brands' success. Rohit Chadda, COO and President - Digital, Times Network, announced a new state-of-the-art testing lab in Noida, enhancing product evaluations.

A major highlight was the SKOAR gaming arena and the SKOAR! College Championship 2024, engaging over 100 colleges, with plans to expand to 1,000. The event showcased India's technological leadership and commitment to innovation.
